

## Tshepo → America

Tshepo is a student at a prestigious Johannesburg high school and will be travelling to the US with his family. His parents will be taking Tshepo and his sister, Zanele, sightseeing in New York and visiting Disney World in Florida. Tshepo's parents are encouraging him to do all his Facebook-ing over WiFi (where available) but he will be calling his friends to check in on their holidays.

## Susanne → United Kingdom

Susanne works in public relations and will be travelling to the UK in December for a business-trip after which she'll be staying with some friends in London for Christmas.

Susanne is expected to be on her phone 24/7 and will be emailing, SMSing, and calling (both locally and to South Africa) on a regular basis. She'll also be receiving quite a few work calls on her South African number.

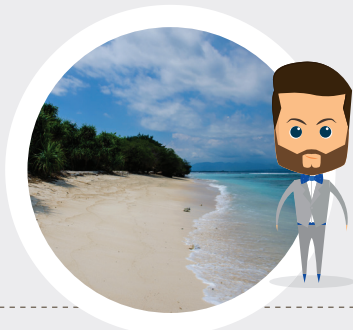

## Chris → Mauritius

Chris is a banker working in financial services, and will be taking his wife, Suzelle, and 3 kids to the beaches of Mauritius for 2 weeks this December. He'll be checking emails daily and will probably need to make a few international calls back to the office.

## Howard → Thailand

Howard is a post-graduate university student who will be travelling with 6 mates to Thailand in December. He'll be pretty much Instagram-ing his way through Koh Phi Phi, Krabi, and Koh Panyang so will be expecting to use a fortune of data. He may also need to send some SMSs to his friends and family back home in SA.
